PROJECT FLOW

Team ID	PNT2022TMID54302
Project Name	EstimateTheCropYieldUsingDataAnalytics

Objective:

• To help the users to create multiple data visualization graphs/charts and using the charts created ,users can analyse them for estimating the crop production.

Project flow:

• To accomplish this, we have to complete all the activities and tasks listed

below

- • IBM Cloud Account creation
- • Login to Cognos Analytics
- • Working with the Dataset
- • Understanding the Dataset
- • Loading the Dataset
- • Examining the data visualization charts for Seasons with average productions ,With years usage of Area and Production , Top 10 States with most area, State with crop production, States with the crop production along with season (Text Table)
- • Dashboard Creation
- • Export the Analytics
- • Sprint development
- • Performance testing
- • User acceptance testing
- • Completion
